

Biography of George J. Rogers III

George is a native Texan and grew up in the small town of Groves, Texas. At the early age of nine, George Rogers sat and watched as Neil Armstrong step onto the lunar soil of the moon. He was hooked on space. After that all his school projects in science or history had some tie to the space program. He built models and gave space presentations of lunar expeditions and the Skylab module. After graduating high school in 1978, he moved to Houston to work in the engineering industry with the hopes of participating in the space program at some level. This has been his goal and dream since seeing Neil Armstrong take that first step on the moon.

He is married to his wife Cheryl who is a stay-at-home wife who supports George in his work and business activities.

George has more than 45 years supporting engineering projects with management, design, and drafting responsibilities in the petrochemical, marine and food processing industries. Of those, 40 years have been managing his own company providing engineering & design services to the petrochemical, marine and food processing industries. As a Designer, he has thirty years' experience as a senior piping designer, eight years of structural design experience and doing 3D CAD for 35 years.

During these years, he has held positions that have included Design Manager, Engineering Manager, Lead Piping Designer, Senior Piping Designer, Senior CAD Specialists, and Senior Structural/Mechanical Designer.

Education:

University of Houston - Computer Programming, 'C' Language
Executrain - SQL Database, Advanced Access

Instructor:

University of Houston - AutoCAD
Rebis - Multiple employers, teaching 3D modeling including standards and guidelines
University of Texas HSC - FrontPage and Dreamweaver – taught, and provided phone support 300 people

Technical Writer:

University of Houston - Computer Aided Drafting (CAD)
Lyondell / Equistar - Web Development Standards and Training Manuals
University of Texas HSC - Web Development Standards and Training Guidelines, On-Line Newsletter
Technology Development Center - Newspaper (published and distributed in Ponca City, Oklahoma)

Business Owner:

Rogers's Design & Drafting - Owner, Engineering, Project Technologies, Inc., President,
C&G Ranch, Inc. - President, Internet Plus – Owner, Mars Space Construction, LLC - President

Memberships:

Past Memberships - Ponca City Economic Development Group, Oklahoma Invention Development Society, American Institute for Design & Drafting, Houston Inventor Association
Current Memberships - Mars Society - Houston, Founding Member, President
