CEO of Built Robotics is Noah Ready-Campbell
They modify existing equip. w/ Robotic Systems

Construction

MARS SPACE CONSTRUCTION, LLC understands that our client's needs do not end when the drawings are finished. Our firm provides turn-key construction services for both large and small scale projects.

Our construction team participates in all phases of your project from conceptual design through completion such as: feasibility studies, constructability, equipment management, maintenance.

Therefore reducing your design cycle time, from project inception through completion.

- On-Site Construction
- Construction Supervision
- Construction Audits
- Quality Control and Safety
- Site Preparation
- On-Site Assembly and Erection
- Repair and Maintenance
- Start-up and Commission
