

MSC Operating Services Summary

Monday, April 12, 2021 8:00 PM

Operating Services

MARS SPACE CONSTRUCTION, LLC understands that our client's needs do not end when the projects are finished. Our firm provides turn-key maintenance services for both large and small scale projects.

Our maintenance team participates in all phases of your project from conceptual design through completion such as: feasibility studies, constructability, material management, maintenance.

MSC will setup equipment maintenance schedule and maintain inventory of replacement parts.

- Various types of Cylinders, Pumps, Motors
- Heat Exchanger, Separators, Heaters
- Steam Turbines, Generators
- On/Off-Site Sandblasting and Painting
- Valves, Gaskets, Seals
- Equipment Replacement Parts
- On-Site Hydro-Testing and X-Ray

We will work to establish programs to minimize downtime and loss time accidents.

- Quality Control and Safety
- Start-Up and Commissioning
